PROFESSIONAL SUMMARY

Results-driven AI Engineer with 3+ years of experience designing and deploying machine learning models and AI-powered solutions in production environments. Proficient in Python, TensorFlow, PyTorch, and REST API development. Passionate about LLMs, NLP, and building scalable MLOps pipelines on cloud platforms.

TECHNICAL SKILLS

Languages	Python, SQL, Bash
ML / DL Frameworks	TensorFlow, PyTorch, Scikit-learn, HuggingFace Transformers
NLP / LLMs	OpenAI API, LangChain, ChromaDB, Pinecone, Prompt Engineering
APIs & Backend	FastAPI, Flask, REST API, Django
Cloud & DevOps	AWS (SageMaker, EC2, S3), Docker, Kubernetes, MLflow
Data & Viz	Pandas, NumPy, Tableau, PowerBI, Excel

WORK EXPERIENCE

AI Engineer Jan 2023 – Present

Anthropic India Pvt Ltd | Bangalore

- Designed and deployed NLP pipelines for text classification and entity extraction, improving accuracy by 18%.
- Built LLM-based Q&A; systems using LangChain and ChromaDB, reducing manual query resolution time by 40%.
- Developed and served ML models via FastAPI endpoints integrated into production microservices on AWS.
- Implemented MLflow tracking and Docker-based deployment pipelines, cutting model release cycles by 30%.

ML Engineer Intern Jun 2022 – Dec 2022

TCS Research | Hyderabad

- Trained computer vision models (ResNet, YOLO) for defect detection in manufacturing images — 94% precision.
- Automated data preprocessing workflows using Pandas and NumPy, saving 10+ hours per week.
- Collaborated with cross-functional teams to integrate ML outputs into internal dashboards (Tableau).

PROJECTS

RAG-Based Document Search Engine 2024

- Built a Retrieval-Augmented Generation system with ChromaDB + OpenAI GPT-4, enabling semantic search over 50K+ documents.
- Reduced average query response time to under 2 seconds with optimized chunking and embedding strategies.

Sentiment Analysis API 2023

- Developed a real-time sentiment analysis REST API using HuggingFace BERT fine-tuned on 100K product reviews.
- Containerised with Docker and deployed on AWS EC2 with auto-scaling — handles 5K+ requests/day.

EDUCATION

B.Tech in Computer Science & Engineering 2018 – 2022

NIT Calicut | Kozhikode, Kerala

CGPA: 8.7 / 10 | Specialisation: Artificial Intelligence & Data Science

CERTIFICATIONS

- AWS Certified Machine Learning – Specialty (2023)
- Deep Learning Specialization – Coursera / deeplearning.ai (2022)
- TensorFlow Developer Certificate – Google (2022)
