Kiran Pandey

Location: Bangalore | Email: kiiiran@gmail.com | Phone: 12345

Professional Summary

Results-driven Data Engineer with a strong background in Python and Django. Experienced in building scalable data pipelines and managing MySQL databases. Proficient in ETL processes and data processing using Pandas and NumPy. Skilled in integrating Machine Learning models including Logistic Regression and TfidfVectorizer.

Technical Skills

1. Languages & Frameworks: Python, Django, MySQL, REST API
2. Data Engineering & ETL: Data Processing, ETL Pipelines, Pandas, NumPy
3. Machine Learning: Scikit-Learn, Logistic Regression, TfidfVectorizer, NLP
4. Data Visualization: Seaborn
5. Soft Skills: Analytical Thinking, Communication & Teamwork

Experience

Graduate Data Engineer (Fresher) | Bangalore

1. Designed and implemented a Profile Management System using Django.
2. Developed backend logic with custom Django models and URL configurations.
3. Utilized MySQL for efficient data storage and management.

Projects

Automated Classification Pipeline

1. Built a text classification system using Scikit-learn.
2. Used TfidfVectorizer for feature extraction and Logistic Regression for predictions.
3. Managed model deployment using Joblib.

Data Processing & Visualization Suite

1. Engineered data cleaning pipelines using Pandas and NumPy.
2. Created visualizations using Seaborn for analytical insights.

Education

Bachelor of Engineering (B.E.) / Bachelor of Technology (B.Tech)
