Sample Python Developer Resume

Your Name

Address: City, State, Country | Phone: +91-XXXXXXXXXX | Email: your.email@example.com
LinkedIn: linkedin.com/in/yourprofile | GitHub: github.com/yourusername

Career Objective

Motivated Python Developer with strong experience in backend web development, REST APIs, database design, and basic machine learning. Seeking a position where I can apply my technical and problem-solving skills to build scalable applications and contribute to team success.

Technical Skills

Programming: Python, JavaScript, SQL, HTML, CSS
Frameworks: Django, Django REST Framework, Flask
Databases: SQLite, PostgreSQL, MySQL
Libraries / ML: NumPy, Pandas, Matplotlib, Scikit-learn (basic)
Tools: Git, GitHub, VS Code, PyCharm, Postman, Docker (basic)
Concepts: OOP, REST API, MVC/MVT, Unit Testing

Projects

Email Spam Detection System (Django + Machine Learning)
Developed a web-based system to classify email messages as spam or ham using TF-IDF vectorization and a Logistic Regression model. Implemented user registration, login, prediction history, and an admin dashboard for monitoring classified emails and uploading datasets.
Online Food Ordering System (Django)
Built a multi-user application where customers can browse menu items, add to cart, and place orders. Implemented authentication, role-based access for admin, order management, and responsive Bootstrap UI.
Bus Ticket Reservation System
Created a booking system with bus schedules, seat selection, fare calculation, and PDF invoice generation. Used Django ORM for database operations and applied clean URL routing and templates.

Experience (Sample)

Junior Python Developer – ABC Tech Solutions (Jan 2023 – Present)
• Developed REST APIs in Django for internal tools and client projects.
• Integrated third-party APIs and optimized database queries for better performance.
• Collaborated with frontend developers and QA team in an Agile environment.
• Wrote unit tests and documentation for major modules.

Education

Bachelor of Computer Applications (BCA)
XYZ University, City – 2022
Relevant Coursework: Data Structures, Database Management Systems, Web Technologies, Operating Systems, Machine Learning (Intro).

Certifications

• Python for Everybody – Coursera
• Django Web Development – Udemy
• Machine Learning with Python – Kaggle / Online Course

Strengths

Problem solving, quick learner, strong debugging skills, good communication, teamwork, attention to detail.
